Eco Lodges Concept in Worcester

Hickman and Smith Architects

Screen slideshow and potentially VR

This is a project we are working on in Worcester for a series of woodland retreat lodges in Worcester. The site is a steep hill with protected woodlands, Damson trees, and bluebell fields. The proposals will provide eco lodges for people to stay in and enjoy the natural surroundings supported by amenity facilities such as a cafe, yoga studio, gym, and treatment rooms. The work submitted here is work in progress but we would supply more developed visuals and VR views to show our designs before the start of the design season.
