## ***Refillable candle & pots***

Groves Candles

Maximum impact on the senses, minimal impact on the planet.

Despite recycling efforts, billions of candle glasses end up in landfill sites annually in the UK alone. To combat this issue we've created a candle refill system to deliver luxury home fragrance without the waste!

Our refillable range of pots and candles are hand-poured in small batches by us using responsibly sourced ingredients and sustainable methods.

By infusing natural coconut wax with perfume grade fragrance oil, we've created a premium range of zero-waste candles that we're proud to put our names on
